Access NewspaperARCHIVE (Grade K-Adult)

Access NewspaperARCHIVE, a historical newspaper database powered by NewspaperARCHIVE.com, contains over 100 million newspaper pages from around the world, some of which date all the way back to 1757! All images are digitized from microfilm, giving users a snapshot view of the newspaper page exactly as it appeared in the past. They are fully searchable by keyword, name, date, title, state, etc. making it easy for you to explore historical content quickly. Since Access NewspaperARCHIVE has over 4.5 million images from Iowa, this resource would greatly benefit any library within our state!

In addition to being the largest historical archive on the planet, nearly 2 million pages are continuously added to the archive every single month, which ensures this resource to be the most extensive collection for years to come! Combine this with their various partnerships with newspaper titles from around the world – such as “Stars and Stripes” – Access NewspaperARCHIVE provides schools and libraries with a unique primary resource and easy-to-use tools for fast searching and browsing.

BookFLIX - (Grades K-3)

Scholastic BookFLIX is an engaging online literacy resource that pairs classic fictional video storybooks from Weston Woods with related nonfiction eBooks from Scholastic. Fiction-nonfiction pairs such as Curious George Rides a Bike paired with Mammals and other Monkeys and Chicka, Chicka 1,2,3 paired with Everyone Uses Math are sure to motivate and excite early readers. BookFLIX features:

- * 90 fiction-nonfiction pairs
- * Spanish translations of 22 pairs
- * Educational games and activities
- * Author biographies
- * Web links
- * Lesson plans and curriculum correlations
- * Educator, librarian, and parent resources

BookFLIX can be used as part of whole group or small group lessons or for independent reading practice in the classroom, library, computer lab, or at home. BookFLIX promises to engage students, reinforce core reading skills, and introduce children to a world of knowledge and exploration – it's a direct path to deepening students' love of reading and learning!

SCHOLASTIC

Discovery Education (Grades K-12)

Science

Discovery Education Science delivers dynamic, up-to-date, high-quality content in a flexible online format that will bring your curriculum to life and powerfully engage today's technology-savvy students with science.

Organized for easy integration in your elementary and middle-school curricula, Discovery Education Science is divided into three areas — Physical Science, Life Science, and Earth and Space Science.

Let students investigate science like real scientists through extraordinary resources including virtual labs, explorations, interactive video, eBooks and an interactive glossary.

Health

Discovery Education Health is a comprehensive health and prevention library that addresses the needs of the whole student. It enhances the classroom with a state-standards-based online library of K-12 health and prevention content focused on building life skills in nine key topic areas.

MediaShare

Discovery Education MediaShare is a web-based content sharing system that enables educators to utilize the best resources through uploading, sharing, managing, and distributing user-created or licensed-digital content.

- Upload educator-created content and share across schools, districts, or even nationally
- Manage digital content with the flexibility to set sharing permissions to allow schools to share nationally, regionally or locally within a building or district
- Generate reports to understand usage patterns - uploads/downloads, content metadata, and more
- Map content to state curriculum standards
- Index and search digital content based on user-assigned meta-tags

Spend more time focused on teaching, learning, and achieving!

Find the right resources for every student, every educator, every time!

Newsbank (Grade K-12)

NewsBank provides schools with comprehensive information resources that complement, extend and even revolutionize library reference, media and technology. These Web-based resources support a wide variety of school research and curricula, while helping to develop critical thinking skills, encourage reading and writing in the content areas and make learning both more engaging and relevant to the real world.

America's Historical Newspapers 1690-1922 – Student Edition: makes it easy for students to search and browse hundreds of U.S. newspapers articles from 1690 through 1922.

America's Historical Newspapers 20th Century – Student Edition: provides news articles covering virtually every topic or aspect of American history and culture between 1900 and 2000.

Access World News – Student Edition: provides access to news publications from countries worldwide, including the full text of major national and international newspapers, news wires, and transcripts. This collection is updated daily to keep students informed of current issues and events and includes deep archives that provide background information on important topics.

ScienceSource Collection: offers access to thousands of articles on life, earth, physical, medical; health and applied sciences that help clarify complex scientific concepts.

KidsPage: provides teachers with resources they need that are fun and capture kids' attention, and also provide safe, appropriate information that's easy to use

NoodleTools (Grade 5-Adult)

NoodleBib is a fully-integrated note-taking and documentation program which is anchored in the best practices of academic research and inquiry learning. Known as the most comprehensive and accurate bibliography composer on the Web, NoodleBib also includes note-taking and outlining components which enable you to extract, organize and synthesize information that you find during the research process. NoodleBib is a flexible teaching tool which supports both individual learning preferences and a variety of teaching styles. Thousands of subscribing K-12 schools, community colleges, and universities have discovered the benefits of NoodleBib:

- **MLA, APA, and Chicago/Turabian** formatting, always **up to date** according to the latest editions of the style guides.
- A **learning and teaching tool**, not simply a "machine" that automates the process.
- **Extensive help** for each citation element at the point of need, a growing knowledge base of examples and fast, personal responses to individual student/teacher citation questions.
- The **integrated note-taking component** enables students to create and manipulate notecards online, then view them in-line with the source reference from which they have come. An antidote to plagiarism and support for original thinking, NoodleBib leads the students through the process of analyzing the information, paraphrasing it, and then thinking about it.
- To move students closer to writing, an **outline** can be created in advance of taking notes or on the fly as the structure emerges. Notecards can be linked to topics in the outline, then printed together.
- Teacher can **preview, comment on and assess** students' working bibliographies and notecards.
- **Convenient.** NoodleBib is Web-based (no software to install, and saved work can be accessed from any computer), and bibliographies and notecards can be exported directly to Word.

Teen Health & Wellness (Grades 7-12)

Teen Health & Wellness: Real Life, Real Answers, the award-winning database from Rosen Publishing Online, provides students with curricular support and self-help on topics such as diseases & conditions; drugs & alcohol, fitness & nutrition, green & environmentally-friendly living; mental & emotional health; internet safety, bullying & school violence, and more.

Teen Health & Wellness allows users to interact with the database in exciting ways. The "Personal Story Project" invites students to contribute their own stories about overcoming a challenge in their lives. Librarians can customize the Hotlines section with local resources. Teens and librarians can customize the article reading lists to include their favorite fiction and nonfiction titles. Rosen has also made virtually all database outreach materials, such as bookmarks and access cards, customizable, allowing libraries to easily add their library URL and login information.

Features:

- Clean interface that is easy to use
- "Did you mean?" searching
- Weekly updated homepage features
- RSS feed and social bookmarking options
- Content aligned to Iowa curriculum standards
- Expanded lesson plans
- Custom glossary
- Resource sections with Web sites, organizations, and recommended reading annotated and reviewed by Rosen editors
- Interactive polls, quizzes, and Ask Dr. Jan features.
- Authentic first-person teen narratives
- National twenty-four-hour hotlines for teens in crisis
