# UltraKey

*The Ultimate Keyboarding Tutor*

Powerful Tools  
for Learning

*UltraKey® 5.0 for Windows and Macintosh  
The No. 1 Teacher Recommended Keyboarding Tutor*

Bytes of Learning is providing UltraKey 5.0 to IEC and school districts in Iowa.

Though our valued partner, Software Plus, Inc., the AEA Collaborative for Educational Media (ACEM) is authorized to purchase Full Site Licenses of the software at District Level pricing as stated below.

So as not to have repeated small number of sales and experience administrative strain, Bytes of Learning is offering to the schools a single license option to simplify their choice of our best selling product, the District Level Full Site License of UltraKey 5.0. This license encompasses virtually every configuration needed by schools and contains the management product, Data Server software. Combining Purchase Orders to reach this quantity guarantees the ACEM and Iowa schools are receiving the best price in N. America.

**Item Number – 99604D - UltraKey 5.0 WinMac / Multi-school License, Network/IP edition  
Qty. 30+ Schools - \$1,199/ ea.**

Software Plus, Inc., can accumulate the incoming Purchase Orders until the 30 Full Site Licenses have been submitted and distribute accordingly.

Rather than prolonging the distribution time, the ACEM, may submit a Purchase Order at the stated quantity and offer these to schools immediately, while continuing to accumulate Purchase Orders as they come in.

Bytes of Learning is also planning on marketing events with Software Plus in your state and look forward to promoting and participating in your organizations' planned events.
