

# ● School Administration

**NEW 2010!**

## Avtex-CityWatch

Using their CityWatch platform, Avtex provides “state of the art” emergency and non-emergency notification solutions for K-12 schools.

Users can send emergency or informational messages to telephones, cell phones, e-mail, PDAs and more. The system is specifically designed to enable schools to better communicate information to parents, staff and students relating to emergency situations, absentee/tardy notifications, lunch account information, grades and more.

CityWatch can integrate with your existing Student Information System and automate message delivery for these applications.

**Clients eligible for participation:**  
K-12 schools

**NEW 2010!**

## EduLink

EduLink Systems Inc. was formed with the goal of developing software that improves communication between parents and schools. Our fully automated Intouch Parent Notification™ System and InClass absentee solution runs totally unattended in conjunction with your Student Information System.

These web-based services allow school and district administrators to affordably and efficiently deliver messages to the entire school community using over one thousand telephone lines.

**NEW 2010!**

## SchoolReach

SchoolReach Instant Parent Contact significantly reduces the school to home communication gap. With SchoolReach, you can notify parents and staff within minutes to broadcast unexpected school closings, lockdowns, meeting reminders, attendance calls, lunch balance reminders and fundraisers.

SchoolReach is easy to use and can integrate with your existing student information system.
